RULING U/S 25-A NO. 332

Dated 04-06-2011

No.L/367/2009

Note:

The customs value determined under this Valuation Ruling shall be applicable customs value for assessment of the relevant goods until and unless revised or rescinded by the competent authority.

Review application against this valuation ruling may be filed before the Director-General of Valuation under Section 25D of the Customs Act, 1969, within thirty (30) days from the date of determination of customs value under this ruling.

The Collectors of Customs, Model Customs Collectorate (Appraisement/ PaCCS/ Port Qasim/ Preventive), Karachi/ Lahore/ Sambrial (Sialkot)/ Faisalabad/ Multan/ Islamabad/ Hyderabad/ Quetta/ Peshawar.

Subject : DETERMINATION OF CUSTOMS VALUES OF RUBBER FOAM INSULATION PIPE U/S 25A OF THE CUSTOMS ACT, 1969.

Customs Value of Rubber Foam Insulation Pipe was determined vide Ruling No.266, dated 29-06-2010. However, on receipt of Complaint from a local manufacturer, exercise for revision of Valuation Ruling was conducted. Meeting with all stake holders was held on 20-04-2011. Local manufacturer pleaded that since the prices of raw materials used for manufacturing of the item have increased in the international market, so the Valuation Ruling should be revised accordingly. Import data under section 25(1), 25(5) and 25(6) of the Act, for the relevant period, was retrieved which revealed that the declared values were on much lower side than the Valuation Ruling and could not be adopted for value determination. Therefore, joint market enquiry was conducted on the participants' request. The local selling price was worked out in the light of deductive value method as envisaged under Section 25(7) of the Customs Act, 1969, which indicated the prices in the local market on higher side. Keeping in view the above, the following values have been determined under deductive value method as envisaged under section 25(7) of the Customs Act, 1969 :-
