Subject: MANUAL ALLOW FOR RELEASEING IBs/PDCs UNDER SRC 492(I)/2009 DATED 13.06.2009

Please refer to Directorate of Reforms & Automation letter No. WeBOC/Exports 176/2013 (Part-III) dated 28.09.2020 on the above subject (copy enclosed).

2. Briefly, in a number of cases, the exporters availing facility of temporary importation under SRO 492(I)/2009 dated 13.06.2009 mistakenly selected the checkbox, "import under One Customs", instead of "import under WeBOC" at the time of filing export GDs in WeBOC. Resultantly, their respective imports could not be adjusted against the exports under WeBOC and the IBs / PDCs could not be released by the clearance Collectorates.

3. In order to resolve this long standing issue the Directorate of Reforms & Automation has created that a functionality in the role of AC/DC Assessment for manual correction of the status of exports GD under SRO 492(I)/2009 dated 13.06.2009 in WeBOC system.

4. In view of the above, it is directed that the under discussion GDs be opened through the new functionality and where admissible, import under One Customs be substituted by imports under WeBOC. The exercise be completed and a certificate to that effect be furnished by 15.11.2020.

DETERMINATION OF CUSTOMS VALUES OF PRINTED/ MISPRINTED WASTE PAPER OF ALL SORTS UNDER SECTION 25-A OF THE CUSTOMS ACT, 1969.

(VALUATION RULING NO 1499/2020)

No.V.Khi/02/PMP/25-A/III /5490

Dated: 09-12-2020

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, the Customs values of Printed/ Misprinted Waste Paper of all sorts are determined as follows:

2. Background of the valuation issue: After conducting detailed analysis of Pakistan's imports for the year 2019-20, the Directorate General of Customs Valuation, Karachi, was tasked by FBR to identify the items / goods where variations w.r.t. values in exporting countries viz-a-viz import values in Pakistan were observed. Accordingly, a special team was constituted in Directorate General of Customs Valuation, Karachi, which identified the subject items as prone to under-invoicing as vast variations in declarations were observed. Accordingly, an exercise was initiated to determine the customs values of **printed/ misprinted waste paper of all sorts** under Section 25-A of the Customs Act, 1969.

3. Stakeholders' participation in determination of Customs values: Meeting with all stakeholders, trade bodies including representatives of clearance collectorates were held in this Directorate General on 06-11-2020 and 24-11-2020. The importers/stakeholders were requested to submit their proposals/suggestions as well as following documents before or during the course of stakeholders' meeting so that Customs values could be determined:

- i. Invoices of import during last three months showing factual values
 - ii. Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
 - iii. Copies of Contracts made / L.C.s opened during the last three months showing the value of item in question. .
 - iv. Copies of Sales Tax Invoices issued during last four months showing the difference in price (excluding duty and taxes) to substantiate that the benefit of difference in price is passed on to the local buyers.
- 4.** The meeting was attended by importers and stakeholders and their points of view were heard in detail to arrive at custom values of subject goods. The stakeholders claimed

that their declared values were true transactional values and may be accepted as such. However, they failed to substantiate the said claim through documentary evidences.

5. Methods Adopted to Determine Customs Values: Valuation methods provided in Section 25 of the Customs Act, 1969, were duly applied in their regular sequential order to arrive at customs value of subject goods. The Transaction value method as provided in sub-section (1) of Section 25 of the Customs Act, 1969, was found inapplicable because no substantial documents were provided by the stakeholders to prove that their declared values were true transactional values. Moreover, different values were declared by different importers for same product according to different origins. Identical/similar goods value methods provided in Sections 25 (5) & (6) ibid were examined for applicability to determine customs values of subject goods. The data provided some references; but due to wide variation in declaration, variety and specifications the same could not be relied upon exclusively. In line with statutory sequential order of section 25, this office conducted various market inquiries under sub-section (7) of Section 25 of the Customs Act, 1969. Finally, reliance had to be made on sub-section (7) of Section 25 of the Customs Act, 1969, to determine Custom values of Printed/ Misprinted waste paper of all sorts.

6. Customs values for Printed/ Misprinted waste paper of all sorts -hereinafter specified shall be assessed to duty/taxes on the following minimum customs values given against them in the Table below:-

S.No	Description	Origin	PCT	Proposed PCT for WeBOC	Customs Values C&F (US\$/KG)

6	Printed-Misprinted Aluminium Coated/ Poly coated board sheets/ reels waste of all sorts			4707.9090.1500	0.180

7. In cases where declared/transaction values are higher than the customs values determined in this Ruling or higher evidential data is available of stipulated period 90 days, the assessing officers shall apply those values in terms of sub-Section (1) of Section 25 of the Customs Act, 1969, and the same may be communicated to this Directorate General forthwith. In case of consignment imported by air, the assessing officer shall take into account the difference between air freight and sea freight while applying the customs values determined in this Ruling.

8. **Validity of Valuation Ruling:** The values determined vide this Ruling shall be the applicable Customs values for assessment of subject imported goods until and unless it is rescinded or revised by the competent authority in terms of Sub-Sections (1) or (3) of Section 25-A of the Customs Act, 1969.

9. **Revision of the Value Determined vide this Valuation Ruling:** A revision petition may be filed against this Ruling, as provided under Section 25-D of the Customs Act, 1969, within 30 days from the date of issue, before the Director General, Directorate General of Customs Valuation, 7th Floor, Custom House, Karachi.

10. The Collectors of Customs may kindly ensure that the values given in this Valuation Ruling for the given description of goods are applied by the concerned staff without fail. Any anomaly observed may kindly be brought to the notice of Directorate General immediately. Customs values determined in the ruling are for the description and specification as mentioned in the above table of this Ruling. HS Codes are mentioned for illustrative purpose so that valuation ruling values are made accessible to the assessing officers. The assessment shall be finalized on the basis of correct classification after fulfilling requisite formalities related to importability or any other certification required thereon. In addition to this, it is further necessary to verify that there is no mis-declaration of any sort or violation of Import Policy Order or Section 15 of the Customs Act, 1969, or any other law in vogue therein.

**DETERMINATION OF CUSTOMS VALUES OF MONO- ETHYLENE & DI-ETHYLENE
GLYCOL UNDER SECTION 25-A OF THE CUSTOMS ACT, 1969**

(VALUATION RULING NO. ¹⁵⁰⁰ / 2020)

C. No. Misc/29/2012-II/

5491

Dated: 09-12-2020

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, the Customs values Mono-Ethylene Glycol (MEG) & Di-Ethylene Glycol (DEG) are determined as follows:-

**2. Background of the valuation issue:** Earlier the customs values of Mono-Ethylene Glycol (MEG) & Di-Ethylene Glycol (DEG) were determined under Section 25-A of the Customs Act, 1969 vide Serial Nos. 20 & 21 of the Valuation Ruling No.1480/2020 dated 22-10-2020. Representations were received from M/s Pakistan Chemicals & Dyes Merchants Association, Federation of Pakistan Chambers of Commerce & Industry as well as other stakeholders stating herein that the subject goods are not commercially traded items and are mostly imported by manufacturers. It was also considered that the prices are published in accredited publication i.e. ICIS and, thus, VR may be hedged with the publication prices of the subject goods. Therefore, an exercise was undertaken by the Directorate General of Customs Valuation to determine the Customs Values of subject goods in terms of Section 25-A of Customs Act, 1969.

3. Stakeholders' participation in determination of values: Meeting was scheduled and held on 06-08-2020 which was attended by different stakeholders. The participants were requested to submit following documents before or during the course of meeting so that customs values could be determined: -

- Invoices of imports during last three months showing customs value.
- Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- Copies of Sales Tax Invoices issued during the last four months showing the difference in price (excluding duty and taxes) to substantiate their contentions.

During the meeting, the importers/ stakeholders stated that due to ongoing corona virus pandemic, the prices of Crude Oil and its Derivatives (other Petroleum products) have shown continuous downward trend. This trend has affected the values of Mono-Ethylene Glycol (MEG) & Di-Ethylene Glycol (DEG). They further informed that the prices of MEG and DEG are published in ICIS and thus there is no need for valuation ruling and values can be hedged with the ICIS prices as done in a number of valuation rulings earlier as well.

4. **Method adopted to determine Customs values:** Valuation methods given in Section 25 of the Customs Act, 1969 were duly applied in their sequential order to arrive at customs values of subject goods. The transaction value method under Sub-Section (1) of Section 25 of the Customs Act, 1969 was found inapplicable because requisite information was not available as per law. The wide variations of values displayed in the import data as available on record also strengthened the aforementioned fact. Hence requisite information required under law was not available to arrive at the transaction value. Therefore, identical/ similar goods value methods as provided in Sub-Sections (5) and (6) of Section 25 *ibid* were examined for applicability to the valuation issue in the instant case. The same provided some reference values but could not be exclusively and solely relied upon. In line with the statutory sequential order of Section 25, this office conducted market inquiries under sub-Section (7) of section 25 of the Customs Act, 1969, however, this method of valuation could not be exclusively relied upon due to reason that these were industrial use items and not readily available in the local market. Therefore, valuation method vide Section 25(8) was examined for valuation but the same also could not be applied as conversion cost from the constituent material and allied expenses, at the country of export were not available for manufacturing of the subject goods. Finally, clearance data, market information and international prices through internet were examined thoroughly and the information so gathered were utilized and analyzed for determination of customs values of the MEG and DEG under Section 25 (9) of the Customs Act, 1969

5. **Customs values for Mono-Ethylene Glycol (MEG) & Di-Ethylene Glycol (DEG):-** *hereinafter specified* shall be assessed to duty/ taxes on the minimum Custom values given against them in the Table below: -

Sr. No.	Description of goods/ items	VR Origins	H.S.Code	Proposed PCT for WEOC	Customs Values (C&F) US\$/Kg
(1)	(2)	(3)	(4)	(5)	(6)
1	Mono-Ethylene Glycol (MEG)	All origins	2905.3100	2905.3100.1000	ICIS FOB values + US\$40/MT (on account of freight)
2	Di-Ethylene Glycol (DEG)	All origins	2905.4100	2905.4100.1000	
Note: The above given prices are for bulk imports. In case the subject goods imported in ISO Tank/ Flexi Tank US\$ 90/MT and for Drums Packing US\$200/MT shall be added for assessment purpose.					

6. In cases where declared / transaction values are higher than the Customs values determined in this Ruling or higher evidential data is available of stipulated period of 90 days, the assessing officer shall apply those values in terms of Sub-Section 25(1) of Section 25 of the Customs Act, 1969. In case of consignments imported by air, the assessing officer shall take into account the differential between air freight and sea freight while applying the Customs values determined in this Ruling.

7. **Validity of this Valuation Ruling:** The value determined vide this Ruling shall be the applicable Customs value for assessment of subject imported goods until and unless it is rescinded or revised by the competent authority in terms of Sub-Sections (1) or (3) of Section 25-A of the Customs Act, 1969.

8. **Review of the value determined vide this Valuation Ruling:** A review petition may be filed against this Ruling, as provided under Section 25-D of the Customs Act, 1969, within 30 days from the date of issue, before the Director General, Directorate General of Customs Valuation, 7th Floor, Custom House, Karachi.

9. The Collectors of Customs may kindly ensure that the values given in the Ruling for the given description of goods are applied by the concerned staff without fail. Any anomaly observed may kindly be brought to the notice of Directorate General immediately. The Customs values determined in the Valuation Ruling are for the descriptions and specifications as mentioned herein. HS Codes are mentioned for illustrative purposes so that Valuation Ruling values are made accessible to assessing officers. The assessment shall be finalized in the correct classifications after fulfilling requisite formalities relating to importability or other certifications required thereon. In addition to this it is further necessary to verify that there is no mis declaration of any sort or violation of Import Policy Order or Section of the Customs Act, 1969 or any other law in vogue therein.

10. This ruling supersedes the Valuation Ruling No. 1480/2020 dated 22-10-2020 only for the Serial Nos. 20 and 21.

The documents submitted by them were sent to International Customs Wing of FBR to get them verified from Srilanka. FBR conveyed vide its letter No. C.NO.2 (14) IC/2007 dated 16.09.2020 verification issued by Srilankan Customs.

5. **Method Adopted to Determine Customs Values:** Valuation methods provided in Section 25 of the Customs Act, 1969, were duly applied in their regular sequential order to arrive at customs values of subject goods. The transaction value method as provided in sub-section (1) of Section 25 of the Customs Act, 1969, was found inapplicable because requisite information was not available as per law. The wide variation of values displayed in the import data as available on record also strengthened the aforementioned fact. Hence, requisite information under law was not available to arrive at the transaction value. Therefore, identical/similar goods value methods as provided in Sub-Sections (5) and (6) of Section 25 *ibid* were examined for applicability to the valuation issue in the instant case. **DETERMINATION OF CUSTOMS VALUES OF COMPUTER/MUTIMEDIA, TROLLEY
SPEAKERS PCT (8518.2100, 8518.2200 & 8518.2990) UNDER SECTION 25-A OF THE CUSTOMS
ACT, 1969**

(VALUATION RULING NO. 1502 / 2020)

C.No. Misc/06/2013/VII **15498.**

Dated: 11 -12-2020

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, the Customs values of Computer / Trolley and Multimedia Speakers PCT (8518.2100, 8518.2200 & 8518.2990) are determined as follows: -

2. Background of the valuation issue: Earlier the customs values of Computer / Trolley and Multimedia Speakers were determined under Section 25A of the Customs Act, 1969 vide Valuation Ruling No.1342/2018 dated 20-11-2018. The Valuation Ruling was more than two years old and the values of subject goods in the international markets were showing varying trends. Moreover, new types / models with various specifications had been introduced in market with latest technology which needed to be included in Valuation Ruling for determination of customs values. Therefore, keeping in view the above facts, an exercise was undertaken by the Directorate General of Customs Valuation to determine the Customs Values of subject goods in terms of Section 25-A of Customs Act, 1969.

3. Stakeholders' participation in determination of values: Meetings were scheduled and held on 24-09-2020 & 22-10-2020, which were attended by different stakeholders. The participants were requested to submit following documents before or during the course of meeting so that customs values could be determined: -

- Invoices of imports during last three months showing customs value.
- Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- Copies of Sales Tax Invoices issued during the last four months showing the difference in price (excluding duty and taxes) to substantiate their contentions.

During the meeting, stakeholders stated that the existing valuation ruling was more than two years old, however, the prices trend of goods have changed in the international market and did not reflect the actual transaction values of the imported goods. The new and latest models introduced in

market during that period were also discussed and the contention of importers that with the introduction of latest model, the previous one loses its value to a great extent was also considered. However, they did not produce substantial document to prove their stance.

4. Method adopted to determine Customs values: Valuation methods provided in Section 25 of the Customs Act, 1969, were duly applied in their regular sequential order to arrive at customs values of subject goods. The transaction value method as provided in Sub-Section (1) of Section 25 of the Customs Act, 1969, was found inapplicable because requisite information was not available as per law. The wide variation of values displayed in the import data as available on record also strengthened the aforementioned fact. Hence requisite information under law was not available to arrive at the transaction value. Therefore, identical / similar goods value methods as provided in Sub-Sections (5) & (6) of Section 25 *ibid* were examined for applicability to the valuation issue in the instant case. The same provided some reference values but could not be exclusively and solely relied upon. In line with the statutory sequential order of Section 25, this office conducted market inquiries for (Deductive Value Method) under Sub-Section (7) of Section 25 of the Customs Act, 1969 which was found appropriate and was applied to arrive at assessable customs values of Networking Equipments.

5. Customs values for Computer Multimedia, Trolley Speakers: Computer Multimedia, Trolley Speakers *hereinafter specified* in Annex-A (Table-A, Table-B and Table-C) shall be assessed to duty/ taxes on the minimum Customs values mentioned therein.

6. In cases where declared / transaction values are higher than the Customs values determined in this Ruling or higher evidential data is available of stipulated period of 90 days, the assessing officer shall apply those values in terms of Sub-Section 25(1) of Section 25 of the Customs Act, 1969. In case of consignments imported by air, the assessing officer shall take into account the differential between air freight and sea freight while applying the Customs values determined in this Ruling.

7. Validity of this Valuation Ruling: The value determined vide this Ruling shall be the applicable Customs value for assessment of subject imported goods until and unless it is rescinded or revised by the competent authority in terms of Sub-Sections (1) or (3) of Section 25-A of the Customs Act, 1969.

8. Review of the value determined vide this Valuation Ruling: A review petition may be filed against this Ruling, as provided under Section 25-D of the Customs Act, 1969, within 30 days from the date of issue, before the Director General, Directorate General of Customs Valuation, 7th Floor, Custom House, Karachi.

9. The Collectors of Customs may kindly ensure that the values given in the Ruling for the given description of goods are applied by the concerned staff without fail. Any anomaly observed may kindly be brought to the notice of Directorate General immediately. The Customs values determined in the Valuation Ruling are for the descriptions and specifications as mentioned herein. HS Codes are mentioned for illustrative purposes so that Valuation Ruling values are made accessible to assessing officers. The assessment shall be finalized in the correct classifications after fulfilling requisite formalities relating to importability or other certifications required thereon. In addition to this it is further necessary to verify that there is no mis-declaration of any sort or

violation of Import Policy Order or Section of the Customs Act, 1969 or any other law in vogue therein.

10. *This ruling supersedes the Valuation Ruling No. 1342/2018 dated 20-11-2018.*

DETERMINATION OF CUSTOM VALUES OF INSTANT DRY YEAST
UNDER SECTION 25-A OF THE CUSTOMS ACT, 1969

(VALUATION RULING NO. ¹⁵⁰³ / 2020)

C. No. Misc/05/2009-I

15499

Dated:- 14/12-2020

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969 Customs values of Instant Dry Yeast are determined as follows:-

2. **Background of the valuation issue:** Earlier the customs values of Instant Dry Yeast were determined under Section 25A of the Customs Act, 1969 vide Valuation Ruling No.548/2013 dated 19-04-2013. The valuation ruling was old and a considerable time has passed and significant variation both in local and in international prices have been observed during data analysis. Therefore, this Directorate General initiated and exercise for re-determination of the Customs Values of the subject goods in terms of Section 25A of Customs Act, 1969.

3. **Stakeholders' participation in determination of Customs values:** Meetings were held on, 09-09-2020 & 16-11-2020 with the stakeholders of subject goods in this Directorate General. The importers/stakeholders were requested to submit following documents before or during the course of meeting so that customs values could be determined:-

- Invoices of import during last three months showing factual value.
- Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- Copies of Sales Tax Invoices issued during last one year showing the difference in price (excluding duty and taxes) to substantiate their contention.

During the meeting, stakeholders admitted that valuation ruling is quite old and need to be revised. However, they also contented that values in the international market have gone. However, on demand to provide the comparison of the values in the year 2013 and in 2020 along with their sales tax invoices, no one provided the same.

4. Method adopted to determine Customs values: Valuation methods provided in Section 25 of the Customs Act, 1969, were duly applied in their regular sequential order to arrive at customs values of subject goods. The transaction value method as provided in sub-section (1) of Section 25 of the Customs Act, 1969, was found inapplicable because requisite information was not available as per law. The wide variation of values displayed in the import data as available on record also strengthened the aforementioned fact. Hence, requisite information under law was not available to arrive at the transaction value. Therefore, identical/similar goods value methods as provided in Sub-Sections (5) and (6) of Section 25 *ibid* were examined for applicability to the valuation issue in the instant case. The same provided some reference values but could not be exclusively and solely relied upon. In line with the statutory sequential order of Section 25, this office conducted market inquiries for (Deductive Value Method) under Sub-Section (7) of Section 25 of the Customs Act, 1969, which was found appropriate and was applied to arrive at assessable customs values of Instant Dry Yeast.

5. Customs values of Instant Dry Yeast *hereinafterspecified* shall be assessed to duty/taxes on the following minimum Customs Values mentioned against them in the table below:-

S.No.	Description of Goods	Specification	H.S. Code	Proposed PCT for WeBoc	Origin	Customs Values (C&F) per Kg
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1.	Instant Dry Yeast	500 grams x 20 Packets per CTN	2102.1000	2102.1000.1000	China	US \$ 2.90
				2102.1000.1100	France	Euro 2.55
				2102.1000.1200	Turkey	US \$ 2.61
				2102.1000.1300	Other Origins	US \$ 3.35
		Bulk Packing (5Kgs and above)	2102.1000	2102.1000.1400	China	US \$ 2.62
				2102.1000.1500	France	Euro 2.30
				2102.1000.1600	Turkey	US \$ 2.33
				2102.1000.1700	Other Origins	US \$ 3.00

6. In cases where declared / transaction values are higher than the Customs values determined in this Ruling or higher evidential data is available of stipulated period of 90 days, the assessing officer shall apply those values in terms of Sub-Section 25(1) of Section 25 of the Customs Act, 1969. In case of consignments imported by air, the assessing officer shall take into account the differential between air freight and sea freight while applying the Customs values determined in this Ruling.

7. **Validity of this Valuation Ruling:** The values determined vide this Ruling shall be the applicable Customs value for assessment of subject imported goods until and unless it is rescinded or revised by the competent authority in terms of Sub-Sections (1) or (3) of Section 25-A of the Customs Act, 1969.

8. **Revision of the value determined vide this Valuation Ruling:** This Valuation Ruling is appealable under the law and a revision petition may be filed against this Ruling, under Section 25-D of the Customs Act, 1969, within 30 days from the date of issue of this ruling before the Director General, Directorate General of Customs Valuation, 7th Floor, Custom House, Karachi.

9. The Collectors of Customs may kindly ensure that the values given in the Valuation Ruling for the given description of goods are applied by the concerned staff without fail. Any anomaly observed may kindly be brought to the notice of Directorate General immediately. Customs values determined in the ruling are for the description and specification as mentioned in the table above of this Ruling. HS Codes are mentioned for illustrative purpose so that valuation ruling values are made assessable to the assessing officers. The assessment shall be finalized on the basis of correct classification after fulfilling requisite formalities related to importability or any other certification required thereon. In addition to this, it is further necessary to verify that there is declaration of any sort or violation of Import Policy Order or Section 15 of the Customs Act, 1969 or any other law in vogue therein.

10- **This ruling supersedes Valuation Ruling No.548/2013 dated 19-04-2013.**
